# MEETING MINUTES

## ITEA2-ModelWriter-13028 Project

### Agenda:

No	Topic	Comment
1	State of the Belgian National Application	Planned Submission Date to IWT: Need to be submitted at the first week of April 2015 otherwise evaluation decision can be delayed to September (M12) Possible Date of acceptance: M12 Possible Start date of KUL1: M12 Possible Start date of KUL2: M12 Possible Start date of SOGETI: M? (I think there is a possibility for Sogeti to start earlier by pre-financing)
2	Confirmation of the new Belgian partners (Verhaert and UAntwerpen)	The existing proposal needs to be submitted by the end of March. Existing Belgian partners suggest to invite new partners in June or July by filling out another IWT proposal.  They also would like to know the new partners' expertise and contributions to the project.
3	"WP Partner Contribution Table" for each Belgian partner KUL1, KUL2, and Sogeti per work package.	KUL1 and KUL2 are OK. WP4 for Sogeti ?
4	Due Dates of the Deliverable led by Belgian Partners in the 2nd Change Request (such as 2.3.1-x.)	Deliverables have been clarified on modified FPP by Monique and Sien.
5	Semantic representation language (SL) (e.g. Object Role Modelling (ORM)) and consistency checks.	ORM is proposed by VUB due to their previous expertise and projects. New partner, KUL2 led by Prof. Monique suggests not to constraint the project for a specific technology. consortium also agrees that ORM is not required.
6	Confirm Cost and Efforts Tables for each Belgian partner on ITEA Community web site.	KUL1 and KUL2: Since they represent the same organization, according to the request of Marc Sturzel from ITEA Office they need to combine their costs and efforts. But follow up the progress separately while executing the project.  SOGETI: It is not possible to send CR with empty cost and efforts table.  Figures will be ready next week.
7	Confirm Use Cases of Belgian Consortium (such as UCs proposed by Space	UC-BE-01 Production of a proposal in response to an ESA Invitation To Tender (ITT) ● dropped
