### **ModelWriter**

### **Today's Knowledge Capture**

Knowledge
Capture with
Modelling
Tools

- Model-centric, Structural and formal
- Very Informal ones (mind maps, text tables, spreadsheets)
- Formal ones (UML, SysML, EMF, BPMN ...)

- Document-centric,
- Text-based
- Technical Documents
- Natural Language
- Requirements,
   Specifications Architectural
   Design Documents, 3D
   Design Models ...

Knowledge Capture with Word Processors

Seamless
Knowledge Capture
with ModelWriter

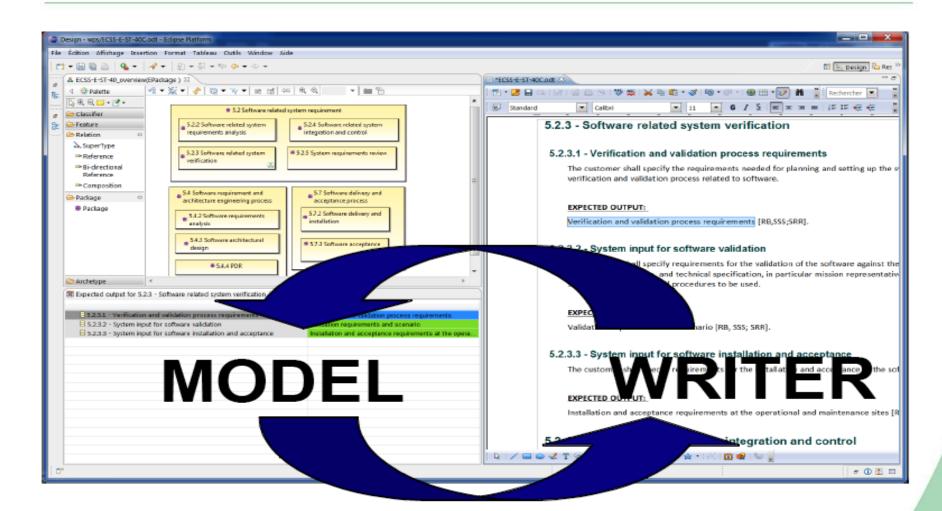

- ModelWriter as integrated product
- Semantic Parser & Annotator (= "Writer" part)
- Modelling and Model Reasoning tools (= "Model" part),
- and keeps both views seamlessly synchronized with each other.

# **SIDP: System Installation Design Principles**

#### SIDP92A001V-A-784

For installation of optical and electrical harnesses additional clearance for sagging (s) shall be provided as detailed below:

- s... Sagging of bundle (real behavior of physical bundle in A/C due to gravity, ageing, etc.)
- D...Required Distance
- L...Actual length of a bundle segment between two Attachment Points (as designed in DMU)

Figure 6: Sagging of bundles between attachment points

Note: Unless the bundle has a straight routing, L is bigger than the pitch between the Attachment Points.
